

STUDIO PROCESS

Selection

P4CA partner identify specific locations to address the climate change challenges in areas of intervention and establish particular broad needs in terms of expertise.

Team engagement

P4CA Studios intervene in selected locations requiring critical or specific support that can address global challenges and serve as a case study or best practice for replication or learning on particular issues.

Scheduling

The host proposes a timeline, a venue and field visits for the Studio.

Studio Preparation

P4CA Climate Action Studios members interact with the host to agree on the schedule and detailed agenda. The host shares documents with the selected P4CA Studio team at least 2 weeks before the Studio.

Running of the Studio

The host provides the infrastructure for running the Studio. The Studio is organized for 3 to 6 days at the location with possible break-out sessions for specialized tasks and field visits that include meetings with communities.

Follow-up

The P4CA Climate Action Studio Team is consulted by the host for follow-up actions in line with identified opportunities.

Planners for Climate Action (P4CA) is a cooperative initiative born at the 23rd Conference of Parties (COP-23) to the UN Framework Convention on Climate Change (UNFCCC), in Bonn on 11 November 2017. The initiative, convened by UN-Habitat, is comprised of associations of planning practitioners and planning educators, collectively representing tens of thousands of planners worldwide, as well as other partners active in this area.

P4CA is placed under the UNFCCC's Marrakesh Partnership of non-State actors for Global Climate Action. It is registered under the NAZCA (Non-State Actors Zone for Climate Action) Platform.

STUDIO

P4CA STUDIOS OBJECTIVES

DIAGNOSTIC

Help assess critical climate change challenges and advise on low-emission and adaptation needs and approaches.

CAPACITY-BUILDING

Support planning departments and related entities to build capacity of planners to address climate change challenges through adaptation and mitigation planning processes using adequate tools.

OPERATIONALIZATION

Help planning departments and related entities to identify catalytic urban interventions that can increase adaptation and mitigation.

AWARENESS-RAISING

Raise awareness on the urgency of climate action and the impact of planning practices in vulnerable and critical urban contexts.

P4CA Climate Action Studios aim to support specific cities and communities to address critical climate change challenges through adaptation and mitigation planning actions.

PRINCIPLES FOR ACTION

COLLABORATION

P4CA Studios are driven by a team of experts from different P4CA partner organizations and equipped to effectively contribute to the above objectives. Experts work together as a team within a context set by the host governments and authorities in a spirit of positive collaboration to support climate change planning actions. Experts make collective decisions on the running of the Studio convened by the host organization. The team is made of the required set of expertise to address the climate change challenges in the specific location of intervention.

CRITICAL CLIMATE ACTION

P4CA Climate Action Studios intervene in selected locations requiring critical or specific support as requested by in-country partners that can address global problematic and serve as a case study or best practice for replication or learning on particular issues.

RESPONSIVE TO CONTEXTUAL NEEDS

P4CA Climate Action Studios are responsive to the needs expressed by the host governments and authorities that provide the necessary background information and work with the team towards agreed objectives.
