

Climate Resilience Post-COVID: Infrastructure, City Form and Urban Design

14-15 October 2020
11h00 – 12h30 UTC/GMT

The UTC will identify and rank promising initiatives promoting city climate resilience. The planning profession is engaged in many innovations intended to support greater resilience; the UTC will foster exchange among educators and practitioners allowing for identification of successful practices aimed at advancing SDG13: Climate Action and SDG11: Sustainable Cities and Communities, and fostering a regenerative and resilient City We Need.

Commonwealth Association of Planners
